1. Product and Company Identification

Product Code: 441/442-RCB
Product Name: 441/442 Waterborne Urethane Finishcoat Hardener Part B
Trade Name: 441/442 Waterborne Urethane Finishcoat Hardener Part B

Manufacturer/Distributor Information

Company Name: Epoxy Systems, Inc.
20774 W Pennsylvania Ave
Dunnellon, FL 34431
Phone Number: +1 (352) 489-1666
Emergency Contact: PERS (USA) (800)633-8253
Alternate Emergency Contact: PERS (International) +1 (801) 629-0667

2. Hazards Identification

GHS Hazard Phrases

H315 - Causes skin irritation.
H319 - Causes serious eye irritation.
H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled.
H332 - Harmful if inhaled.
H373 - May cause damage to lungs through prolonged or repeated exposure.
H335 - May cause respiratory irritation.

GHS Precaution Phrases

P262 - Do not get in eyes, on skin, or on clothing.
P280 - Wear protective gloves/protective clothing/eye protection/face protection.
P260 - Do not breathe dust/fume/gas/mist/vapours/spray.
P285 - In case of inadequate ventilation wear respiratory protection.

GHS Response Phrases

P302+352 - IF ON SKIN: Wash with plenty of soap and water. P332+313 - If skin irritation occurs, get medical advice/attention. P362 - Take off contaminated clothing.
P305+341+338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+313 - If eye irritation persists, get medical advice/attention.
P304+341 - IF INHALED: If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. P342+311 - If experiencing respiratory symptoms call a POISON CENTER or doctor/physician.

**GHS Storage and Disposal Phrases**
- P501 - Dispose of contents/container to local, state, and federal authority requirements.
- P402+404 - Store in a dry place and/or in closed container.

**Potential Health Effects (Acute and Chronic)**
- May cause sensitization. Moderate irritant.

**Inhalation**
- May cause respiratory tract irritation. May cause sensitization by inhalation. May cause allergic respiratory reaction.

**Skin Contact**
- Causes skin irritation. May cause sensitization by skin contact.

**Eye Contact**
- Causes eye irritation.

**Ingestion**
- May be harmful if swallowed.

**Recommended Exposure Limits**
- Homopolymer of Hexamethylene Diisocyanate (28182-81-2)
- Exposure Limit
  - time weighted average 0.5 mg/m3
  - Exposure Limit
  - Short Term Exposure Limit (STEL): 1.0 mg/m3 (15-min)

- Hexamethylene-1,6-Diisocyanate (822-06-0)
- ACGIH Threshold Limit Values
  - Time Weighted Average (TWA): 0.005 ppm
  - Exposure Limit
  - Ceiling Limit Value: 0.02 ppm

**Medical Conditions Generally Aggravated By Exposure**
- Skin disorders, Respiratory disorders, Eye disorders, Skin Allergies.

**OSHA Regulatory Status:**
- This material is classified as hazardous under OSHA regulations.

### 3. Composition/Information on Ingredients

<table>

</tbody>
</table>

### 4. First Aid Measures

**Emergency and First Aid Procedures**
- Use first aid treatment according to the nature of the injury. Keep victim under observation. Get immediate medical advice/attention.

**In Case of Inhalation**
- If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. If experiencing respiratory symptoms: Get medical attention immediately.
In Case of Skin Contact
In case of contact, immediately wash skin with soap and copious amounts of water. Remove contaminated clothing and shoes. Get medical attention if irritation develops or persists.

In Case of Eye Contact
In case of contact with eyes, flush with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating the eyelids with fingers. Call a physician.

In Case of Ingestion
If swallowed, wash out mouth with water provided person is conscious. Call a physician immediately. Do not induce vomiting. For further assistance, contact your local Poison Control Center.

Signs and Symptoms Of Exposure
Acute or chronic overexposure to isocyanates may cause sensitization in some individuals, resulting in allergic respiratory reactions including wheezing, shortness of breath and difficulty breathing.

5. Fire Fighting Measures

Flash Pt: ~ 365.00 F
Explosive Limits: LEL: NE UEL: NE
Autoignition Pt: No data available.

Fire Fighting Instructions
Protective Equipment: Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes.

Flammable Properties and Hazards
Product is not considered a fire hazard. Closed containers may rupture (due to build up in pressure) when exposed to extreme heat.

Hazardous Combustion Products
Hazardous decomposition products formed under fire conditions. Carbon dioxide, Carbon monoxide, Hydrogen cyanide, Nitrogen oxides, Isocyanates.

Suitable Extinguishing Media
CO2, dry chemical, dry sand, alcohol-resistant foam. Use water spray to cool unopened containers.

Unsuitable Extinguishing Media
Do not use water because of violent reaction.

6. Accidental Release Measures

Steps To Be Taken In Case Material Is Released Or Spilled
PROCEDURE TO BE FOLLOWED IN CASE OF LEAK OR SPILL.
Ventilate the area. Dike far ahead of spill; use dry sand to contain the flow of material. Shovel into open container. Do not close container tight. Move container to a well-ventilated area (outside). Spill area can be decontaminated with the following recommended decontamination solution: Mixture of 90% water, 8% concentrated ammonia, 2% detergent. Add at a 10 to 1 ratio. Allow to stand for at least 48 hours to allow escape of evolved carbon dioxide.

Protective Precautions, Protective Equipment and Emergency Procedures
Wear respirator, chemical safety goggles, rubber boots, and heavy rubber gloves. Where splashing is possible, full chemically resistant protective clothing, and boots are required.

Environmental Precautions
Prevent entry into waterways, sewers, basements or confined areas.

7. Handling and Storage

Hazard Label Information:
Avoid contact with skin and eyes. Do not get on skin and clothing. Avoid inhalation of vapor or mist. Store in a closed container.
Precautions To Be Taken in Handling
Provide adequate ventilation. Do not breathe vapor. Do not get in eyes, on skin or on clothing.

Precautions To Be Taken in Storing
Keep container tightly closed in a dry and well-ventilated place. Protect from moisture. Store away from incompatible material. Keep from freezing.

Other Precautions
Wash thoroughly after handling.

8. Exposure Controls/Personal Protection

Protective Equipment Summary - Hazard Label Information:
Neoprene gloves Safety glasses, or goggles. Impervious clothing. Chemical resistant boots

Respiratory Equipment (Specify Type)
A NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate protection.

Eye Protection
Safety glasses, or goggles.

Protective Gloves
Nitrile rubber and Neoprene are recommended.

Other Protective Clothing
Where splashing is possible, full chemically resistant protective clothing, safety glasses or face shield and boots are required.

Engineering Controls (Ventilation etc.)
Ventilation is normally required when handling or using this product to keep exposure to airborne contaminants below the exposure limit. Good general ventilation should be sufficient to control airborne levels. Safety shower and eye bath.

Work/Hygienic/Maintenance Practices
Wash contaminated clothing before reuse. Discard contaminated shoes. Wash thoroughly after handling.

Environmental Exposure Controls
Avoid runoff into storm sewers and ditches which lead to waterways. May be hazardous to the environment if released in large quantities.

9. Physical and Chemical Properties

Physical States: [ ] Gas [ X ] Liquid [ ] Solid
Melting Point: NE
Boiling Point: ~ 355.00 F
Decomposition Temperature: ~ 355.00 F
Autoignition Pt: No data.
SAFETY DATA SHEET
441/442 Waterbourne Urethane Topcoat
Hardener Part B

Flash Pt: ~ 365.00 F
Explosive Limits: LEL: NE UEL: NE
Specific Gravity (Water = 1): ~ 1.15
Density: ~ 9.6 LB/GL
Vapor Pressure (vs. Air or mm Hg): NE
Vapor Density (vs. Air = 1): NE
Evaporation Rate: NE
Solubility in Water: nil

Solubility Notes
Insoluble. Reacts with water.

Percent Volatile: 0.0 % by volume.
VOC / Volume: NP
HAP / Volume: NP
Saturated Vapor Concentration: NE

Appearance and Odor
Clear. Slight odor.
Appearance: Light. Yellowish.

10. Stability and Reactivity

Stability: Unstable [ ] Stable [ X ]
Reactivity
Avoid: acids, amines, alcohols, water, alkalines, strong bases. Reacts with water, with formation of carbon dioxide. Copper alloys.

Conditions To Avoid - Instability
Moisture. Extreme temperatures.

Incompatibility - Materials To Avoid
Avoid: acids, amines, alcohols, water, alkalines, strong bases. Copper alloys.

Hazardous Decomposition Or Byproducts
Thermal decomposition may produce smoke, carbon monoxide, carbon dioxide, Hydrogen cyanide, aromatic isocyanates, gases/vapors. Isocyanates.

Possibility of Hazardous Polymerization:
Will occur [ ] Will not occur [ X ]

Conditions To Avoid - Hazardous Reactions
Will not undergo hazardous polymerization in normal storage conditions.

11. Toxicological Information

Toxicological Information
May cause sensitization by skin contact. The isocyanate component is a respiratory sensitizer. It may cause allergic reaction leading to asthma-like spasms of the bronchial tubes and difficulty in breathing. Persons with asthmatic conditions, chronic bronchitis, other chronic respiratory diseases, recurrent eczema or pulmonary sensitization should be excluded from working with isocyanates. Once a person is diagnosed as having pulmonary sensitization (allergic asthma) to isocyanates, further exposure is not recommended.

Chronic Toxicological Effects
May cause sensitization by skin contact. May cause sensitization by inhalation. The substance may cause damage to the olfactory epithelium after repeated inhalation.

Irritation or Corrosion
Respiratory or skin sensitization. Prolonged contact can cause reddening, swelling, rash, scaling, or blistering.
Symptoms related to Toxicological Characteristics
The isocyanate component is a respiratory sensitizer. It may cause allergic reaction leading to asthma-like spasms of the bronchial tubes and difficulty in breathing. Persons with asthmatic conditions, chronic bronchitis, other chronic respiratory diseases, recurrent eczema or pulmonary sensitization should be excluded from working with isocyanates. Once a person is diagnosed as having pulmonary sensitization (allergic asthma) to isocyanates, further exposure is not recommended.

Sensitization
Assessment of sensitization:
The substance may cause sensitization of the respiratory tract. Sensitization after skin contact possible. Studies in animals suggest that dermal exposure may lead to pulmonary sensitization. However, the relevance of this result for humans is unclear.

Carcinogenicity/Other Information
Assessment of carcinogenicity: A carcinogenic potential cannot be excluded after prolonged exposure to severely irritating concentrations. These effects are not relevant to humans at occupational levels of exposure.

Experimental/calculated data:
OECD Guideline 453 rat Inhalation 0, 0.2, 1, 6 mg/m³
Result: Lung tumors.

12. Ecological Information

General Ecological Information
Avoid release to the environment. May be hazardous to the environment if released in large quantities.

Results of PBT and vPvB assessment
No data available.

Persistence and Degradability
Poor Degradability.

Bioaccumulative Potential
Hydrophilic Aliphatic Polyisocyanate based on Hexamethylene Diisocyanate: 0 %, not readily degradable.

Homopolymer of Hexamethylene Diisocyanate: 0 %, Exposure time: 28 Days, Not readily biodegradable.

N,N-dimethylcyclohexylamine: Aerobic, > 70 %, Exposure time: 28 Days.

Mobility in Soil
Adsorption to solid soil phase is not expected.

13. Disposal Considerations

Waste Disposal Method
Dispose of this product, product solutions and its container according to federal, state and local authority requirements. Do not re-use empty containers. Do not burn, or use a cutting torch on, the empty drum. Avoid release to the environment.
