1. Product and Company Identification

Product Code: 464-B
Product Name: 464 Ultra High Solids Urethane Topcoat Hardener Part-B
Trade Name: 464 Ultra High Solids Urethane Topcoat Hardener Part-B

Information
Company Name: Epoxy Systems, Inc.
20774 W Pennsylvania Ave
Dunnellen, FL 34431
Phone Number: +1 (352) 489-1666
Emergency Contact: PERS (USA) (800) 633-8253
Alternate Emergency Contact: PERS (International) +1 (801) 629-0667

2. Hazards Identification

GHS Classification
Skin Sensitization, Category 1
Serious Eye Damage/Eye Irritation, Category 2A
Respiratory Sensitization, Category 1
Acute Toxicity: Inhalation, Category 4
Target Organ Systemic Toxicity (single exposure), Category 3

Placard Key word GHS hazard phrase
Exclamation point Warning May cause an allergic skin reaction
Exclamation point Warning Causes serious eye irritation
Health hazard Danger May cause allergy or asthma symptoms or breathing difficulties if inhaled
Exclamation point Warning Harmful if inhaled
Exclamation point Warning May cause respiratory irritation, or may cause drowsiness and dizziness

GHS Hazard Phrases
H320 - Causes eye irritation.
H335 - May cause respiratory irritation.
H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled.
H317 - May cause an allergic skin reaction.
H303 - May be harmful if swallowed.

GHS Precaution Phrases
P261 - Avoid breathing dust/fume/gas/mist/vapors/spray.
P280 - Wear protective gloves/protective clothing/eye protection/face protection.
P264 - Wash hands thoroughly after handling.
P285 - In case of inadequate ventilation wear respiratory protection.
P271 - Use only outdoors or in a well-ventilated area.

GHS Response Phrases
P302+352 - IF ON SKIN: Wash with plenty of soap and water. P333+313 - If skin irritation or rash occurs, seek medical advice/attention. P363 - Wash contaminated clothing before reuse.
P305+351+338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337+313 - If eye irritation persists, get medical advice/attention.
P304+341 - IF INHALED: If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. P314 - Get medical attention/advice if you feel unwell.
P301 - IF SWALLOWED: P331 - Do NOT induce vomiting. P330 - Rinse mouth. P310 - Immediately call a
POISON CENTER or doctor/physician.

GHS Storage and Disposal Phrases
P501 - Dispose of contents/container to local, state, and federal authority requirements.
P405 - Store locked up.

Potential Health Effects (Acute and Chronic)
Inhalation
May cause respiratory tract irritation. May cause sensitization by inhalation. May cause allergy or asthma symptoms or breathing difficulties if inhaled.

Skin Contact
Causes skin irritation. May cause sensitization by skin contact.

Eye Contact
Causes eye irritation.

Ingestion
May be harmful if swallowed.

Medical Conditions Generally Aggravated By Exposure
Skin disorders, Respiratory disorders, Eye disorders, Skin Allergies.

OSHA Regulatory Status:
This material is classified as hazardous under OSHA regulations.

3. Composition/Information on Ingredients

<table>
<thead>
<tr>
<th>Hazardous Components (Chemical Name)</th>

<th>Concentration</th>
</tr>
</thead>
<tbody>
<tr>
<td>Poly(hexamethylene diisocyanate)</td>
<td>28182-81-2</td>
<td>&gt;99 %</td>
</tr>
</tbody>
</table>

4. First Aid Measures

Emergency and First Aid Procedures
Use first aid treatment according to the nature of the injury. Keep victim under observation. Get immediate medical advice/attention.

In Case of Inhalation
If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. If experiencing respiratory symptoms: Get medical advice/attention.

In Case of Skin Contact
In case of contact, immediately wash skin with soap and copious amounts of water. Remove contaminated clothing and shoes. Get medical attention if irritation develops or persists.

In Case of Eye Contact
In case of contact with eyes, flush with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating the eyelids with fingers. Call a physician.

In Case of Ingestion
If swallowed, wash out mouth with water provided person is conscious. Do not induce vomiting. Do not give anything to drink. Get medical attention immediately.

Signs and Symptoms Of Exposure
Acute or chronic overexposure to isocyanates may cause sensitization in some individuals, resulting in allergic respiratory reactons including wheezing, shortness of breath and difficulty breathing.

5. Fire Fighting Measures

<table>
<thead>
<tr>
<th>Flash Pt:</th>
<th>~ 336.00 F</th>
<th>Method Used: Closed Cup</th>

</thead>
<tbody>
<tr>
<td>Explosive Limits:</td>
<td>LEL: NE</td>
<td>UEL: NE</td>
</tr>
<tr>
<td>Autoignition Pt:</td>
<td>~ 896.00 F</td>
<td></td>
</tr>
</tbody>
</table>

Fire Fighting Instructions
Protective Equipment: Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes.
Flammable Properties and Hazards
Product is not considered a fire hazard. Closed containers may rupture (due to build up in pressure) when exposed to extreme heat.

Hazardous Combustion Products
Hazardous decomposition products formed under fire conditions. Carbon dioxide, Carbon monoxide, Hydrogen cyanide, Nitrogen oxides, Isocyanates.

Suitable Extinguishing Media
Dry chemical or CO2. Foam.

Unsuitable Extinguishing Media
Water spray. Reacts with water, with formation of carbon dioxide.

6. Accidental Release Measures

Steps To Be Taken In Case Material Is Released Or Spilled
PROCEDURE TO BE FOLLOWED IN CASE OF LEAK OR SPILL.
Ventilate the area. Dike far ahead of spill; use dry sand to contain the flow of material. Shovel into open container. Do not close container tight. Move container to a well-ventilated area (outside). Spill area can be decontaminated with the following recommended decontamination solution: Mixture of 90 % water, 8 % concentrated ammonia, 2 % detergent. Add at a 10 to 1 ratio. Allow to stand for at least 48 hours to allow escape of evolved carbon dioxide.

Protective Precautions, Protective Equipment and Emergency Procedures
Wear respirator, chemical safety goggles, rubber boots, and heavy rubber gloves. Where splashing is possible, full chemically resistant protective clothing, and boots are required.

Environmental Precautions
Prevent entry into waterways, sewers, basements or confined areas.

7. Handling and Storage

Hazard Label Information:
Avoid contact with skin and eyes. Do not get on skin and clothing. Avoid inhalation of vapor or mist. Store in a closed container.

Precautions To Be Taken in Handling
Provide adequate ventilation. Wear all personal protection required in section 8. Do not breathe vapor. Do not get in eyes, on skin or on clothing.

Precautions To Be Taken in Storing
Keep container tightly closed in a dry and well-ventilated place. Protect from moisture. Store away from incompatible material. Store at temperatures not exceeding 40°C/104°F.

Other Precautions
Wash thoroughly after handling.

8. Exposure Controls/Personal Protection

Protective Equipment Summary - Hazard Label Information:
Neoprene gloves Safety glasses, or goggles. Impervious clothing. Chemical resistant boots

Respiratory Equipment (Specify Type)
In isocyanate-containing environments (air-purifying or fresh air-supplied) may be necessary for spray applications or other situations such as high temperature use which may produce inhalation exposures. A NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate protection.
Eye Protection
Safety glasses, or goggles.

Protective Gloves
Nitrile rubber and Neoprene are recommended.

Other Protective Clothing
Where splashing is possible, full chemically resistant protective clothing, safety glasses or face shield and boots are required.

Engineering Controls (Ventilation etc.)
Good general ventilation should be sufficient to control airborne levels. Safety shower and eye bath.

Work/Hygienic/Maintenance Practices
Wash contaminated clothing before reuse. Discard contaminated shoes. Wash thoroughly after handling.

Environmental Exposure Controls
Avoid runoff into storm sewers and ditches which lead to waterways. May be hazardous to the environment if released in large quantities.

10. Stability and Reactivity

Stability: Unstable [ ] Stable [ X ]

Reactivity
Avoid: acids, amines, alcohols, water, alkalines, strong bases. Reacts with water, with formation of carbon dioxide.
Conditions To Avoid - Instability
Moisture. Extreme temperatures.

Incompatibility - Materials To Avoid
Avoid: acids, amines, alcohols, water, alkalines, strong bases.

Hazardous Decomposition Or Byproducts
Thermal decomposition may produce smoke, carbon monoxide, carbon dioxide, aromatic isocyanates, gases/vapors. Nitrogen oxides.

Possibility of Hazardous Polymerization:
Will occur [ ] Will not occur [ X ]

Conditions To Avoid - Hazardous Reactions
Will not undergo hazardous polymerization in normal storage conditions.

11. Toxicological Information

Toxicological Information
Respiratory Sensitization.

Chronic Toxicological Effects
May cause sensitization by inhalation.

Irritation or Corrosion
May cause respiratory irritation. May cause skin irritation. May cause redness, rash on skin.

Symptoms related to Toxicological Characteristics
May cause respiratory sensitization. May cause allergic reaction leading to asthma-like spasms of the bronchial tubes and difficulty in breathing. Persons with asthmatic conditions, chronic bronchitis, other chronic respiratory diseases, recurrent eczema or pulmonary sensitization should be excluded from working with isocyanates. Once a person is diagnosed as having pulmonary sensitization (allergic asthma) to isocyanates, further exposure is not recommended.

Sensitization
May cause rash on skin, and redness in eyes. May cause coughing by inhalation of a mist or spray.

Hazardous Components (Chemical Name) | CAS #  | NTP | IARC | ACGIH | OSHA
1. Poly(hexamethylene diisocyanate) | 28182-81-2 | n.a. | n.a. | n.a. | n.a.

12. Ecological Information

General Ecological Information
Avoid release to the environment. May be hazardous to the environment if released in large quantities.

Results of PBT and vPvB assessment
No data available.

Persistence and Degradability
Poor Degradability.

Bioaccumulative Potential
Significant accumulation in organisms is not to be expected.

Mobility in Soil
Adsorption to solid soil phase is not expected.

13. Disposal Considerations

Waste Disposal Method
Dispose of this product, product solutions and its container according to federal, state and local authority requirements. Avoid release to the environment.
14. Transport Information

**LAND TRANSPORT (US DOT)**

**DOT Proper Shipping Name**: Not Regulated.

**Precautionary Label**: May cause skin, eye, and respiratory irritation. May cause allergic respiratory reaction.

**AIR TRANSPORT (ICAO/IATA)**

**ICAO/IATA Shipping Name**: Not Regulated.

**MARINE TRANSPORT (IMDG/IMO)**

**IMDG/IMO Shipping Name**: Not Regulated.

**Marine Pollutant**: No
