1 Identification of the substance/mixture and of the company/undertaking

- Product identifier:
  
  Epoxy.com #6890

  - Application of the substance / the preparation: adhesive

Details of the supplier of the safety data sheet

Supplier:
Epoxy Systems, Inc.
20774 West Pennsylvania Ave
Dunnellon, FL 34431
Tel.: +1 352-489-1666
Fax.: +1 352-489-1625

Information department:
Katey Fontaine Tel.: +1 352-489-1666 email: office@epoxy.com

- Emergency telephone number:
PERS 1-800-633-8253

2 Hazards identification

Hazard information:

- Xi Irritant
  
  - F Highly flammable

Information concerning particular hazards for human and environment:
The product has to be labelled due to the calculation procedure of the “General Classification guideline for preparations of the EU” in the latest valid version

R 11 Highly flammable.
R 37/38 Irritating to respiratory organs and skin.
R 43 Possible sensitising by eye contact.

Label elements

- GHS02 Flame
  
  H225 – Fluid and vapour highly flammable.

- GHS07
  
  H315 - Causes skin Irritation.
  H317 - May cause an allergic skin reaction.
  H335 - May cause respiratory irritation.

Prevention:
P210 Keep away from heat/sparks/open flames/hot surfaces. Do not smoke.
P241 Use explosion-proof electric equipment/ventilators/lighting.

Safety phrases:
P303+P361+P353 ON SKIN CONTACT (or with hair): Immediately take off all contaminated, saturated clothes. Rinse/shower skin with water.
P321 Special treatment (see identification label).

Storage: P405 Keep receptacles tightly sealed. Waste disposal: P501 Must be specially treated adhering to.
3 Composition/information on ingredients

- Chemical characterization
- Description: methyl methacrylate resin

Dangerous components:

- Additional information: For the wording of the listed risk phrases refer to section 16.

4 First aid measures

- General information: Immediately remove any clothing soiled by the product.
- After inhalation:
  - Take affected persons into fresh air and keep quiet.
  - Seek medical treatment in case of complaints.
- After skin contact:
  - Immediately wash with water and soap and rinse thoroughly.
  - If skin irritation continues, consult a doctor.
- After eye contact: Rinse opened eye for several minutes under running water. Then consult a doctor.
- After swallowing: Seek immediate medical advice.
- Information for doctor: No particular symptoms are known - treat according to symptoms.
  - The following symptoms may appear: headache

5 Firefighting measures

- Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water.
- For safety reasons unsuitable extinguishing agents: water.
- Hazards arising from the substance, its combustion products or gases or mixture:
  - Formation of toxic gases is possible during heating or in case of fire.
- Protective equipment: Wear independent breathing gear.
- Additional information: Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

6 Accidental release measures:

- Personal precautions:
  - Ensure adequate ventilation.
  - Wear protective clothing.
- Environmental precautions:
  - Do not allow product to reach sewage system or any water course.
  - Do not allow to penetrate the ground/soil.

(Continued on page 3)
Methods and material for containment and cleaning up:
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Ensure adequate ventilation.
Do not flush with water or aqueous cleansing agents. Collect in a suitable container and dispose as described in section 13.
■ Zusätzliche Hinweise: Unfallstelle sorgfältig säubern.

7 Handling and storage

Handling:
Precautions for safe handling:
Keep receptacles tightly sealed.
Store in cool, dry place in tightly closed receptacles.
Ensure good interior ventilation, especially at floor level. (vapours are heavier than air).
■ Information about protection against explosions and fires:
Keep ignition sources away - Do not smoke.
Protect against electrostatic charges.
Vapours can combine with air to form an explosive mixture.
Flammable gas-air mixtures may be formed in empty receptacles.
Storage:
Requirements to be met by storerooms and receptacles:
Store in a cool location.
Keep containers securely closed and dry, store at 5 - 25°C.
Store only in the original receptacle. Provide floor trough without outlet.
■ Information about storage in one common storage facility: Store away from oxidizing agents.
■ Further information about storage conditions:
Keep receptacle tightly sealed.
Store in cool, dry conditions in well sealed receptacles.
Store only outside or in explosion proof rooms. Storage class: 3
■ Classification: Highly flammable

8 Exposure controls/personal protection

Additional information about design of technical systems: No further data; see item 7.

Components with limit values that require monitoring at the workplace:
80-62-6 methyl methacrylate (50-100%)
AGW (Germany) 210 mg/m³, 50 ml/m³
2(1); DFG, Y
■ Additional information: The lists that were valid during the creation were used as basis.

Personal protective equipment:
General protective and hygienic measures:
Keep away from foodstuffs, beverages and feed. Wash hands before breaks and at the end of work. Do not inhale gases/vapours/aerosols.
Avoid contact with the eyes and skin. Store protective clothing separately. Immediately remove all soiled and contaminated clothing.
Respiratory protection: Use suitable respiratory protective device in case of insufficient ventilation.
Recommended filter device for short term use:

Filter AX

Protection of hands: Only use chemical-protective gloves with CE-labelling of category III

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation.

Material of gloves: Butyl rubber, BR; Nitrile rubber, NBR

Recommended thickness of the material: > 0.5 mm

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed. Value for permeation: Level > 3

- As splash guard, gloves of the following material are suitable: PVC gloves.
- Not suitable are gloves made of the following materials: Leather gloves. Strong gloves.

Eye protection: Tightly sealed goggles.

Body protection: Protective work clothing.

| **Change in condition**           |
| Melting point/Melting range:      |
| Boiling point/Boiling range:      |
| Undetermined                      |
| >100°C (212°F)                    |

| **Flash point:**                  |
| 10°C (50 °F)                      |

| **Ignition temperature:**         |
| 245°C (473°F)                     |

| **Auto igniting:**                |
| Product is not selfigniting.      |

| **Danger of explosion:**          |
| Product is not explosive. However, formation of explosive air/vapor mixtures is possible. |
**Explosion limits:**
- lower: 0.8 Vol%
- upper: 12.5 Vol %

**Vapor pressure at 25°C (77 °F):** 47hPa

**Density at 20°C (68 °F):** 1 g/cm³

**Solubility in/miscibility with water:** Not or little miscible

**Viscosity: kinematic at 23°C (73 °F):** 43 s(DIN 53211/6)

---

**10 Stability and reactivity**

*Thermal decomposition / conditions to be avoided:*
No decomposition if used according to specifications.

*Substances to be avoided:*
- Acids
- strong oxidizing agents

*Dangerous reactions*
- Violent reactions with strong alkali and oxidizing agents.
- Reaction with potassium amines.

*Hazardous decomposition products:*
- the event of fire:
  - toxic gases and vapours
  - flammable gases/vapours

---

**11 Toxicological information**

*Acute toxicity:*

38668-48-3 N,N-Bis-(2-hydroxypropyl)-p-toluidin

| Oral | LD50 | 100 mg/kg (rat) |

*Primary irritant effect:*
- on the skin: Irritant to skin and mucus membranes
- on the eye: no irritation

*Sensitization:*
- Sensitization possible through skin contact

*Additional toxicological Information:*
The product shows the following dangers according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version: Irritating
12 Ecological information

- Ecotoxic effects:

**Acute toxicity:**

- BSB5-value: 0.14 g/l(-)
- ECO EC3: 100 mg/l (Pseudomonas putida)
- EC50: (192h) 37 mg/l (Scenedesmus quadicauda)
- LC50 LC50: (96h) 170 mg/l (Selenastrum capricornatum)
  - (48h) 69 mg/l (daphnia)
  - 350 mg/l (Leuciscus idus)
  - > 79 mg/l (Onchorynchus mykiss)
  - 232 mg/l (Lepomis macrochirus (Sonnenbarsch))
  - 277 mg/l (Goldfish)

**Further ecological information:**

- **General information:** water hazard class 2 (self-rating): hazardous to water
- Do not allow product to reach ground water, water course or sewage system.

13 Disposal information

- **Product:**
- **Suggestion:**
  Must be specially treated adhering to official regulations.
- **Uncleaned packagings:**
  **Suggestion:** Disposal must be made according to official regulations.

14 Transport information

### 15 Regulatory information

**Markings according to EU guidelines:**
The product has been classified and marked in accordance with EU Directives / Ordinance on Hazardous Material.

**Code letter and hazard designation of product:**

- Xi Irritant
- F Highly flammable

**Hazard-determining components of labelling:**

- methyl methacrylate

**Risk phrases:**

- 11 Highly flammable.
- 37/38 Irritating to respiratory system and skin.
- 43 May cause sensitization by skin contact.

**Safety phrases:**

- 16 away from sources of ignition - No smoking.
- 24 Avoid contact with skin.
- 28 After contact with skin, wash immediately with plenty of soap and water
- 33 Take precautionary measures against static discharges.
- 37 Wear suitable gloves.

(Contd. on page 8)
Trade name: Epoxy.com #6890

60 This material and its container must be disposed of as hazardous waste.

National regulations:
VOC USA % 0.1 g/l / 0.00 lb/gal
Water hazard class: WGK2 (Self-assessment): hazardous for water.

16 Other information:

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Relevant phrases
11 Highly flammable.
25 Toxic if swallowed.
37/38 Irritating to respiratory system and skin.
41 May cause serious eye damage.
43 May cause sensitization by skin contact.
52/53 Harmful to water organisms, may have long-term harmful effects in waters.
