SECTION VI - HEALTH HAZARD DATA

Route(s) of Entry: **Inhalation:** No **Skin:** Yes **Ingestion:** Yes

Health Hazards (Acute and Chronic): Inhalation-Based on human experience, may cause irritation of the respiratory tract. Because of its low volatility, however, significant exposure by the inhalation route is unlikely under most ambient conditions, but vapors, aerosols, and mists may be formed during some applications. May be harmful if inhaled. Ingestion – Based on similar product testing, product may be slightly toxic.

Carcinogenicity: NTP: Not listed **IARC Monographs:** Not listed **OSHA Regulated:** Not regulated

Signs and Symptoms of Exposure: Irritation as noted above. Skin sensitization (allergy) may be evidenced by rashes. Especially hives. Respiratory tract sensitization (e.g., allergy, asthma) may be evidenced by wheezing with shortness of breath and cough.

Medical Conditions Generally Aggravated by Exposure: Preexisting eye, skin, and respiratory disorders may be aggravated by exposure to this product. Preexisting skin or respiratory tract allergies may increase the chance of developing increased allergy symptoms from exposure to this product

Emergency and First Aid Procedures: Eyes: Immediately flush with water for at least 15 minutes while holding eyelids open. Get medical attention. Skin: Immediately remove contaminated clothing or shoes, wipe excess from skin and flush with plenty of water for at least 15 minutes. Follow by washing with soap and water. Do not reuse clothing until thoroughly cleaned. Inhalation-Do not give liquids if victim is unconscious or very drowsy. Otherwise, give no more than 2 glasses of water and induce vomiting by giving 30 cc (2 tablespoons), syrup of Ipecac*. If Ipecac is unavailable, give 2 glasses of water and induce vomiting by touching finger to back of victim's throat. Keep victim's head below hips while vomiting. Get medical attention. *If victim is a child, give no more than 1 glass of water and 15 cc (1 tablespoon) of syrup of Ipecac. If symptoms such as loss of gag reflex, convulsions or unconsciousness occur before emesis, gastric lavage should be considered following intubation with a cuffed endotracheal tube.

SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE

Steps to Be Taken in Case Material Is Released or Spilled: Scoop up material and collect in suitable containers.

Waste Disposal Method: Burn in adequate incinerator or bury in approved landfill in accordance with Federal, State and Local regulations.

Precautions to Be Taken in Handling and Storing: Keep containers closed.

Other Precautions: Avoid breathing vapors and contact with heated materials.

SECTION VIII - CONTROL MEASURES

Respiratory Protection: NIOSH approved organic cartridge when spraying materials.

Ventilation: Mechanical (General) Good general ventilation.

Protective Gloves: Rubber Gloves

Eye Protection: Safety Glasses

Other Protective Clothing or Equipment: Long sleeved clothing

Work/Hygienic Practices: Follow practices of good industrial hygiene.
