4. First Aid Measures

Emergency and First Aid Procedures:

In Case of Inhalation:
- If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. If experiencing respiratory symptoms: Get medical attention immediately.

In Case of Skin Contact:
- In case of contact, immediately wash skin with soap and copious amounts of water. Remove contaminated clothing and shoes. Get medical attention if irritation develops or persists.

In Case of Eye Contact:
- In case of contact with eyes, flush with copious amounts of water for at least 15 minutes. Assure adequate flushing by separating the eyelids with fingers. Get medical attention immediately.

In Case of Ingestion:
- If swallowed, wash out mouth with water provided person is conscious. Do not induce vomiting. Never induce vomiting or give anything by mouth if the victim is unconscious or having convulsions. Get medical attention immediately.

Signs and Symptoms Of Exposure:
- Eyes: Symptoms may include discomfort or pain, excess blinking and tear production, with marked redness and swelling of the conjunctiva.
- Skin: Can cause severe skin burns. Symptoms may include redness, edema, drying, defatting and cracking of the skin.
- Inhalation: Vapors are irritating to the respiratory system, may cause throat pain and cough.

  **Method Used:** Pensky-Marten Closed Cup
- **Explosive Limits:** LEL: NE  
  UEL: NE
- **Autoignition Pt:** No data.
- **Suitable Extinguishing Media:** CO2, dry chemical, dry sand, alcohol-resistant foam.
- **Unsuitable Extinguishing Media:** Do not use a direct water stream, which may spread fire.
- **Fire Fighting Instructions:** Protective Equipment: Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes.
- **Flammable Properties and Hazards:** Combustible material: may burn but does not ignite readily.

6. Accidental Release Measures

- **Protective Precautions, Protective Equipment and Emergency Procedures:** Wear respirator, chemical safety goggles, rubber boots, and heavy rubber gloves. Where splashing is possible, full chemically resistant protective clothing, and boots are required.

- **Respiratory Equipment (Specify Type):** Normally when good engineering controls are used, no respiratory protection is needed. However, if cured product is abraded by sanding or grinding use a NIOSH approved air-purifying respirator. Where risk assessment shows air-purifying respirators are appropriate use a dust mask type N95 (US) or type P1 (EN 143) respirator. A NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate protection.

- **Eye Protection:** Safety glasses, or goggles.
- **Protective Gloves:** Nitrile rubber and Neoprene are recommended.
- **Other Protective Clothing:** Where splashing is possible, full chemically resistant protective clothing, safety glasses.
