Epoxy.com Product #695 Methyl Methacrylate (MMA) Hardening Powder

The Right Product for the Right Job Since 1980

Epoxy.com Product #695

Methyl Methacrylate Hardener (Hardening Powder - BPO)

Description

Epoxy.com Product #695 Hardener Powder (BPO) for Epoxy.com MMA Flooring Systems is for use with Epoxy.com Products #691, #692, #693, #697, #698 & #699. Epoxy.com Product #695 Hardener Powder (BPO) for Epoxy.com MMA Flooring Systems dosing can be changed due to temperature and desired set time / working time. Epoxy.com Product #695 must be well mixed with Epoxy.com MMA before adding any other aggregates and fillers. After mixing the Epoxy.com Product #695 Hardening Powder into Epoxy.com MMA the polymerization reaction which leads to the hardening of the MMA begins.

Composition

Epoxy.com Product #695 is a white dry powder consisting of 50% BPO, Dibenzoylperoxide.

Technical Data

- Appearance: Sandy, white dry powder
- Content of Dibenzoylperoxide: Approximately 50%
Self-accelerating decomposition temperature   140°F
Self-ignition temperature   >680°F
Solubility   Not soluble in water

Packaging

1/2 pound Bag   approximately 10 Volume Ounces
5 pound   1 gallon Pail   approximately 100 Volume Ounces
15 pound   3 gallon Pail   approximately 300 Volume Ounces
55 pound   Box   approximately 1,100 Volume Ounces

Use

Epoxy.com Product #695 MMA Hardener Powder must be mixed just immediately before the application of Epoxy.com MMA. All other powders and fillers must be added after Epoxy.com Product #692 and the Epoxy.com MMA resin have been well mixed together. A dosing chart is shown below. Be sure to double check with the individual technical data sheets for the Epoxy.com MMA you are mixing with Epoxy.com Product #692.

Caution

Epoxy.com Product #692 is an oxidizing agent that violently decomposes under the influence of heat or when it comes in contact with deducing agents. **Do Not mix With Accelerators.** Store separately from Epoxy.com MMA resins. Review MSDS information completely before using this or any other Epoxy.com Products.

Storage

Store in tight containers in dry environments below 80°F.
